## SkyLight Integral Perform

PRODUCT OVERVIEW

SkyLight Integral Perform is a plug and play **full integrated vertical freezer** offering you the opportunity to replace the remote power pack dedicated to frozen area.

Integral technology is an **Epta exclusive cooling unit design** already time-tested and approved by our most demanding customers all over the world. It offers a **new perspective and approach of refrigeration system design**, facilitating installation phase, making start up faster and decreasing maintenance cost.

Compared to previous generation, SkyLight Integral Perform **offers up to -30% energy saving**, more **smart display solutions** and an **enlarged offer of customizations**.

New SkyLight Integral Perform

SkyLight Integral Perform main advantages are

**Extended dimensional range from 2 to 5 doors** thanks to Epta exclusive triple cooling circuit design

**Sustainable product design** combining R290 ozone friendly fluid together with inverter compressors technology

**Advanced merchandising solution** making the product loading faster and easier

**Ultra low energy consumption** achieving European energy label class C

**Food appeal** for an immersive shopping experience helping to boost your sales

**Fast commissioning and easy maintenance** reducing the working load of your staff
